### Current Address

2708 Garden Springs Dr

Richardson, TX 75082

Versatile Full-Stack Software Engineer specializing in Front-End technologies, with experience building web applications for both small businesses and Fortune 100 companies

### EDUCATION

**B.S. Computer Science** Graduated: May, 2017

Texas A&M University, College Station, TX

### WORK EXPERIENCE

#### Capital One Financial - Plano, TX

Associate Software Engineer

June 2017 - Present

- *Project Rebel (Loan Decisioning Tool)* - Partnered with UX designer to create indicators for high-risk auto deals and re-design our credit report display, Reduced run-time of front-end unit test suite from 10 minutes to 45 seconds.
- *Capital One Auto Pre-Approval Website* - Rebuilt front-end in Angular, led an integration with our Auto-Navigator website, and implemented new features such as a listener for failed email delivery, A/B testing, and usability surveys.
- *Home Loans Origination Data Team* - Built a prototype with Angular and Go for a tool to help business analysts track the lineage and properties of data in Capital One's new data platform.
- *Involvement* - As part of the Technology Development Program, I mentored interns and interviewed applicants to the program.

#### FrogSlayer Consulting LLC - Bryan, TX

Junior Software Engineer

Oct 2015 - Apr 2017

- *Credit Insurance Reporting System* - Built new features in nodejs back-end, created a reusable OCR micro-service, met with client (a financial company), and managed the deployment of the entire system on AWS, all as the sole developer.
- *Dog Registration Web Portal* - Worked with a small team to build an application for a nationally recognized Kennel Club, developed in AngularJS and .Net MVC.

#### Texas A&M Computer Science Dept - College Station, TX
