SUMMARY Versatile full-stack software engineer specializing in front-end technologies, with experience building web applications for both a Fortune 100 company and small businesses

EDUCATION **Texas A&M University** - College Station, TX Graduated: May 2017
B.S. Computer Science, *Minor in Mathematics*

WORK EXPERIENCE **Capital One Financial** - Plano, TX June 2017 - Present
Associate Software Engineer

- *Project Rebel (Loan Decisioning Tool)* - Partnered with UX designer to create indicators for high-risk auto deals and redesign our credit report display, reduced run-time of front-end unit test suite from 10 minutes to 45 seconds
- *Capital One Auto Pre-Approval Website* - Rebuilt front-end in Angular, led an integration with our Auto-Navigator website, implemented new features such as a listener for failed email delivery, A/B testing, and usability surveys
- *Home Loans Origination Data Team* - Used Angular and Go to build a prototype for a tool to help business analysts track data lineage and properties in Capital One's new data platform
- *Involvement* - Mentored interns and interviewed applicants to the Technology Development Program

FrogSlayer Consulting LLC - Bryan, TX Oct 2015 - Apr 2017
Junior Software Engineer

- *Credit Insurance Reporting System* - Built new features in Node.js back-end, created a reusable OCR micro-service, met with client (a financial company), managed the deployment of the entire system on AWS, all as the sole developer
- *Dog Registration Web Portal* - Worked with a small team to build an application with AngularJS and .NET MVC for a nationally recognized Kennel Club

Texas A&M Computer Science Department - College Station, TX Aug 2014 - Dec 2016
Peer Teacher

- Tutored students in various intro-level Computer Science courses

TECHNICAL SKILLS
